

Council of Saudi Chambers (CSC)

The Council for Saudi Chambers of Commerce and Industry is the official federation for the 25 Saudi Chambers of Commerce in Saudi Arabia. The Council was formed as per the Royal Decree # R/6 dated 30/04/1400 Hijri (March 1980) with its head office in Riyadh.

Its main objective is to observe the common interests of the Saudi Chambers, represent them on local and international levels and assist in the enhancement of the private sector's role in the development of the national economy.

GS1 Saudi Arabia (GS1 KSA)

GS1 Saudi Arabia (GS1 KSA) is an authority for providing GS1 International barcodes for local market, a foundation tool for automation for inventory, warehouse, Point-of-Sale etc.

GS1 KSA is locally known as 'Saudi Barcode Centre'

Saudi Bar Code Center started its operation in June 1999 (corresponding to 24/02/1420). We took the responsibility to increase the awareness among local businesses for supply chain automation and their adoption to improve their logistics work process. We follow the GS1 Global Standards for Barcodes - the international bar coding system in the Saudi Arabia.

We are a member of the GS1 – Global Bar Coding Standards Organization. GS1 standards are widely being implemented and used worldwide. GS1 has over one million companies registered using GS1 standards throughout the globe.

The Saudi Bar Code Center is the only authorized entity to manage all the issue related to bar coding of materials (such as industrial products, various goods, services and materials). The Center follows the specifications of the Organization and works to increase bar coding awareness and culture using the global bar coding system to develop a common international language for economic activities.

The Saudi Bar Code Center performs its activities through Council of Saudi Chambers and is assigned to the task of unifying and applying the international bar coding system (GS1).
